

# Overflow Drain—PVC Coated

Deckrite Canada PVC coated overflow drains are used in conjunction with all other Deckrite Canada Drains. The Overflow Drain provides backup and protection for most enclosed decks. The PVC coated flange ensures permanent waterproof seal between membrane and overflow drain

## Features

Compatible with all Deckrite Canada membranes
PVC coated flange for watertight terminations
Tig welded aluminum construction

## Technical Notes

Flange Height: 9” (225mm)
Flange Width: 9” (225 mm)
Pipe Length: 12” (300mm)
Outlet Pipe: 2-3/4” (69mm) O.D

## Packaging

Sold in single units
