Drawing Title:

Drip Edge with Adhered Membrane and Clip

Date:	January 1, 2020
System:	Fully Adhered
Detail Number:	DCS-101

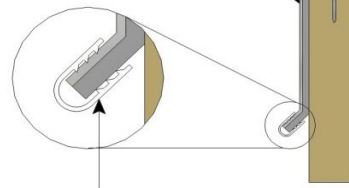

The flashing is nailed to the deck surface, and then the vinyl membrane is adhered to both the deck and flashing. The vinyl membrane is cut so that it is flush with the edge of the flashing. A PVC clip is installed over both the vinyl and flashing.

DeckRite membrane, continuously adhered with approved solvent adhesive

DeckRite membrane fully adhered

Adhesive

Metal flashing, mechanically attached

PVC Clip has reverse barbs on interior to grip material and prevent clip from coming off.
